

# ARIZONA SPACE INSTITUTE SYMPOSIUM

Monday, April 22, 2024

ENR2 Building, Room S107

With a rooftop networking luncheon

Join us for the 2024 Arizona Space Institute Symposium on Monday, April 22, 2024. This symposium serves as a pivotal platform for experts, innovators, and enthusiasts in the space industry to convene, collaborate, and inspire.

## Key Features:

**Presentations:** Engage with leading experts as they present their latest research findings and advancements in space exploration. From advanced propulsion systems to space habitats and sustainability, this event covers a wide array of topics crucial to the advancement of space technology and exploration.

**Morning Keynote, Poster Session, and Breakfast:** Begin your day with an opportunity to browse presenter posters and a light breakfast. This informal gathering offers attendees the chance to exchange ideas, discuss emerging trends, and establish connections with colleagues and peers in a relaxed setting. We will open the event with an exciting keynote from Dr. Erika Hamden, Dr. Walt Harris, and Pete Reiners.

**Networking Luncheon:** Enhance your professional network during our networking luncheon. Connect with fellow attendees, forge new partnerships, and explore potential collaborations that will drive the progress of space research and technology forward.

**RSVP Information:** Please [register](#) at the link below to secure your space in this esteemed gathering of minds by Friday, April 12, 2024.
